## PROFESSIONAL SUMMARY

Frontend Developer with 6+ months of professional experience in building responsive, user-friendly web applications using the MERN stack. Proficient in Next.js, React.js, and modern CSS frameworks with a focus on performance optimization and component reusability. Skilled in REST API integration, state management, and cross-browser compatibility. Demonstrated ability to translate design mockups into pixel-perfect interfaces while collaborating effectively in agile environments.

## EXPERIENCE

**Software Developer** – BeamX Techlabs Pvt.Ltd 📁 |

**Oct 2024 - Ongoing**

- Developed and maintained responsive web applications using Next.js and React.js, improving page load times by 30% through code optimization.
- Implemented 10+ modern UI components with Tailwind CSS, adhering to design specifications and ensuring cross-browser compatibility.
- Collaborated with cross-functional teams in an agile environment to translate business requirements into functional features.
- Successfully integrated RESTful APIs with frontend components, implementing efficient data fetching and state management patterns.

**React.js Developer Intern** – GeekBull Consulting 📁 |

**July 2024 - Sept 2024**

- Developed 5+ reusable UI components using React.js, JavaScript, and CSS frameworks for production applications.
- Implemented React hooks, context API, and component lifecycle methods to manage application state efficiently.
- Created responsive layouts using CSS Grid, Flexbox, and Media Queries for optimal viewing across multiple devices.
- Participated in code reviews, daily stand-ups, and sprint planning in an agile development environment.

## PROJECTS

**IVL (Imperial Vaults)** – CRM Project 📁 | [Next.js](#), [React.js](#), [Tailwind CSS](#), [REST API](#) **Frontend Developer**

- Developed a comprehensive CRM system for secure storage of valuable items in bank-style lockers using Next.js and React.js.
- Engineered key frontend modules including Bookings, Payments, Inventory Management, and Appointment scheduling with responsive design.
- Implemented real-time notification system and key management functionality using WebSockets to enhance security and user experience.
- Integrated RESTful APIs with JWT authentication to sync frontend components with backend services for seamless data flow.

**Real Time Chat Application** [Link](#) | [React.JS](#), [Express.JS](#), [MongoDB](#), [Node.JS](#), [WebSockets](#)

**Feb 2024**

- Developed a full-stack real-time chat application using the MERN stack with Socket.io for instant messaging capabilities.
- Implemented secure user authentication and authorization using JWT tokens and bcrypt password hashing.
- Created responsive UI with React hooks and custom CSS for optimal user experience across mobile and desktop devices.
- Designed MongoDB schema and built RESTful API endpoints for efficient data storage and retrieval of messages and user profiles.

- Built a responsive cryptocurrency tracking application that fetches real-time data from external APIs for 100+ cryptocurrencies.
- Implemented advanced data visualization using Chart.js to display historical price trends and market performance metrics.
- Created an interactive comparison feature allowing users to analyze multiple cryptocurrencies side-by-side with dynamic filtering.
- Utilized React Context API for global state management and implemented client-side pagination for improved performance.

## TECHNICAL SKILLS

---

**Programming Languages:** JavaScript, TypeScript, Java, HTML5, CSS3

**Frontend Frameworks/Libraries:** React.js, Next.js, Redux, Context API, Bootstrap, Tailwind CSS, Material UI

**Backend Technologies:** Node.js, Express.js, RESTful APIs, GraphQL, JWT Authentication

**Databases:** MongoDB, MySQL, Mongoose ODM

**Developer Tools:** Git, GitHub, VS Code, Webpack, Babel, npm, Chrome DevTools, Postman

**Methodologies:** Agile/Scrum, Responsive Design, Test-Driven Development, CI/CD

**Computer Science:** Data Structures, Algorithms, OOPS, DBMS, Operating Systems

**Soft Skills:** Problem-solving, Communication, Team Collaboration, Time Management, Adaptability

## CORE COMPETENCIES

---

**Frontend Development | API Integration | Responsive Design | Performance Optimization | State Management | UI/UX Implementation | Component Architecture | Git Workflow**

## EDUCATION

---

**Annamacharya Institute of Technology and Sciences**  
Bachelor of Technology in Civil Engineering - **9.15 GPA**

**July 2020 - May 2023**  
Tirupati, India

**GMR Polytechnic**  
Diploma in Civil Engineering - **90%**

**June 2017 - April 2020**  
Srisailam, India

## ACHIEVEMENTS

---

- Led 5 successful projects as Team Leader during college and published a research journal.
- Solved 600+ DSA coding questions on various competitive programming platforms.
